

BILL NYE the great American humorist is dead.

A new national party has been organized at Omaha, with Gen. Kelly, he of industrial army fame, as leader, which denounces the Democratic, Republican and Populist parties.

Gold has been discovered within the city limits of Salt Lake City, Utah. It is located in city creek canyon and assays run as high as \$500 in gold and \$40 in silver per ton.

It is claimed that the bill passed by Congress authorizing the leasing of the public school lands gives too much power to three men, as it is authorized the Governor, Auditor and Superintendent of public instruction to lease such lands until the meeting of the next legislature.

We are told that the Safford Populists held a meeting, on the quiet, last week, elected delegates to the Territorial Convention, which met at Phoenix last Friday and Saturday, and gave them secret instructions what to do when they got to the convention. We have not yet ascertained what the instructions were, but we suppose they were to stay with Buck O'Neil.

At the meeting of the improvement club last Wednesday night, decided that ways, and the county fair, next Wednesday.

The following is the end of the Democratic Judges have States Court, and have

indicate the following property is for sale by the Safford Real Estate Agency:

15 acres or finely improved land, well set in alfalfa, 2 shares Montezuma water, adjoins Safford.

18 acres of improved land well set in alfalfa, house and corral; 3 shares Montezuma water. Within 100 yards of ditch; near Safford.

COAL LANDS TO BE OPENED.

The prospects of cutting off the San Carlos coal fields are most gratifying and induces the belief that it will soon be accomplished. Indian Inspector McCormick, who was sent to San Carlos about a month ago by the Interior Department at Washington has been negotiating with the Reservation Indians since his arrival, is heartily in favor of the segregation of the coal fields. On Monday last a meeting or council of the Reservation Indians was held at San Carlos and by Tuesday noon 360 Indians had agreed to the segregation of the coal fields. If these fields are opened it means much to the county, and in fact for the west, and before many months will be re-leased under mining.

THE U. S. COURT.

The Florence Tribune mourns the loss of the United States Court in a tirade of abuse on the town to which the court has been moved. It says:

"It is a little one-horse town, with no hotel accommodations, and with but a little one-story adobe court house and jail, entirely inadequate to the business of the court. Had the court been moved to Globe there might have been some excuse for it, for there is a populous and live community."

Of course, we don't blame the Tribune for feeling bad about the removal, but it need not feel distressed about the court house, as we will soon have one in Safford that will be suitable, and the community is wide awake enough to satisfy even Bro. Reppy. The Tribune continues:

"The U. S. Court for this district meets in Sheneyville on the second Monday in April. Those attending would do well to take a camping outfit along, as there are no hotel accommodations."

The people of Solomonville do not boast of any metropolitan hotels, to be sure, but if our memory is not at fault, the hotel accommodations at Florence are nothing to brag of, as at the last term of the U. S. court, we were compelled to sleep nearly half a mile from the hotel, in a deserted house, and were assured we had the best there was left.

"There will be but two terms of the United States Court held in Sheneyville. As soon as the Republicans get into power they will make it their business to move the Court back to Florence, where it properly belongs."

We would advise the Tribune to lay its sorrows before Delegate Murphy. He is in "power" now, and may be able to render immediate relief.
